One Of A Kind Making Things Happen is about overcoming life's difficulties as an orphaned child on the streets of London being moved on from orphanages and foster homes before being pushed into an English boarding school for "wayward" children. Tony's stories, including the, now well known, people he met along the way, are told in tales that will leave you breathless learning all he has done, the humor of events seen through Tony's eyes in the hilarious stories of his life. In his business world he succeeded in reaching the top with international success. The book will take you through an emotional roller-coaster of scenes, businesses he was instrumental in making successful, the people, places and events; from meeting British royalty and well known screen writers to musicians and artists who together crossed Tony's path in the rich tapestry of his life. One Of A Kind Making Things Happen will inspire it's readers to do more with their own lives. Then maybe to learn, from reading this book, to risk failure in order to reach success can have outstanding and successful results as Tony has most definitely achieved.
